

Workshop Outline: "L.E.A.P. Ahead"

Learn how to LEAP ahead in school through the creation of a personalized Learning & Education Action Plan.

Within each child is a unique magnificence—a possibility to live into. However all too often barriers or fears can block or cover this up, keeping both the child and world from seeing the brilliance which lies within. Our job as parents, educators, and coaches is to help remove these barriers and allow children to achieve success. While there are many ways to do this, one method is through the creation of a personalized Learning & Education Action Plan (L.E.A.P.) allowing them to LEAP towards success!

During this interactive two-hour workshop students will begin to create a personalized school success plan. Using the analogy of taking a trip, they will:

- Define and clarify their vision of "success" (the destination)
- Examine current levels of performance (the starting point)
- Look at how to get from here to there (plotting the course)
- Identify & discuss academic roadblocks and how to avoid them.

About Youth Coach Canada

Youth Coach Canada (YCC) is a registered non-profit organization founded by International Parenting & Youth Coach, Rob Stringer, BA, BEd, CPC in 2008.

YCC helps kids, teens, and young adults meet with success by making professional life coaching services & programs available to youth, as well as workshops for parents, educators, and others who support today's youth.

YCC is dedicated to empowering today's youth—teaching them powerful skills to succeed both now and into the future. These skills support key areas: academic success, youth leadership & entrepreneurship, as well as self-esteem & risk-taking.

YCC's mission is simple—to help today's youth lead lives they LOVE! Says Rob, "It's not about raising super-stars, but rather, giving regular kids & teens the skills and support they need to succeed,"
